Why invest in AeraMaxPro?

- Assurance for people entering the building
- AeraMaxPro units meet the highest standards for commercial units
- HVAC systems are designed to recirculate the air
 - The majority do not clean the air, only trap very large particles
 - HVAC systems spread germs farther and faster
- Benefits extend further than virus collection, including allergens and VOCs
- Investment of **CARES Act** funds
- 5-year warranty
- **Advanced Technology – EnviroSmart™**

Additional Investment Considerations

- Timeline for vaccinations varies by state
- COVID-19 herd immunity unknown due to variants

It Doesn't Stop at Viruses

The average person inhales 3,000 gallons of indoor air **every day**, with most people spending **90%** of their time indoors and nine hours per day in shared environments-spaces that are up to five times more polluted than outdoors.
